

# Limbpower

grant a wish for one  
lucky young amputee

**O**NE OF THE lucky youngsters who went along to watch and learn at LimbPower's recent Junior Amputee Games enjoyed a dream come true when he not only met, but trained with Paralympic legend Jonnie Peacock.

Rio Woolf, is a 4 year old above knee amputee who is mad about sports and was thrilled to be meeting his idol. They had great fun racing on the track together, and Jonnie also kindly signed Rio's Paralympic souvenirs and poster.

Rio's mum, Juliette said: "Jonnie is such a lovely, humble, friendly guy. He was so sweet with Rio, who was initially very shy with him (and

uncharacteristically speechless!), but was soon showing off his 'special leg' to Jonnie and Jonnie showed him his!"

Kiera Roche, LimbPower Chairman said: "Rio is such a special little boy and we loved meeting him at the Junior Amputee Games, so when the opportunity came along to introduce a young amputee to Jonnie we couldn't think of a better candidate. It's so important to keep the legacy of the Paralympics alive and to encourage these athletes of the future."

As for Rio, he told Jonnie "I love you all the world, all the universe, and all the ways" which is a pretty high accolade for anybody!
